

OLDFIELD

THE COTTAGES AT ARROWHEAD LAKE

ABOUT THE HOMES

Tucked into the newest section of Oldfield, The Cottages at Arrowhead Lake feature the best of Low Country design and quality. Designed by the award winning Moser Design Group, Inc., the four models chosen for the first phase of the neighborhood incorporate the best that Oldfield has to offer. Sized just right for the times, each of the models includes a long list of standard features: From metal roofs to reclaimed pine floors, expansive porches to detached garages and potting sheds, custom kitchens to main floor master suites, extensive interior trim to professionally landscaped and irrigated lawns, Kohler fixtures to granite countertops, these homes show exquisite attention to the details that make life in Oldfield so different from most private gated communities. Each of the designs features three bedrooms with at least two and one half bathrooms, and range in size from about 1,700 to 2,200 square feet.

Nestled close to the street, The Cottages at Arrowhead Lake bring you as close to the lake as possible. Just outside your front door lies the pavilion and dock, a perfect location for family gatherings or just relaxing with your feet up. Each of the four designs has been selected to make sure that what you see from your primary living space is what makes this section of Oldfield so special, Arrowhead Lake.

To learn more about The Cottages at Arrowhead Lake and to arrange a tour of the furnished model, please contact Breckenridge at Oldfield (843)-645-6593 or Gateway Realty at 866-653-3435.

ABOUT THE BUILDER

Breckenridge Development Group, LLC, a developer/builder based on the New Jersey shore is the managing partner of Breckenridge at Oldfield, LLC. As the builder partner, Breckenridge has over sixteen years of experience creating communities and single family homes in the shore communities just fifty miles south of Manhattan. With homes ranging from \$280,000 to over \$3,000,000, Breckenridge comes equipped to bring only the best mix of quality and value to the Low Country. Senior management of the firm will be on site throughout the construction of The Cottages at Arrowhead Lake, providing assurance that quality standards will be maintained.
